

ARJUN PS

Python Developer

arjunps665@gmail.com | 8606165869 | Irinjalakuda,Thrissur | [Linkedin](#)

Summary

Certified Python Developer and seeking challenging opportunities where I can fully use my skills for the organization. To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

Technical Skills

Python, Django, REST API, MySQL, Postgresql, Celery, HTML, CSS, Bootstrap, GitHub

Education

Bachelor Of Computer Applications

Calicut University

Graduation 2020-2023

Experience

Senscript Technologies Pvt Ltd | Python Developer Intern

Mar 2025 – Feb 2026

- Developed and maintained web applications using Python and Django, focusing on clean, modular code and proper MVC architecture.
- Built and consumed RESTful APIs for seamless frontend-backend communication and integrated third-party APIs where required.
- Created and managed relational databases using MySQL/PostgreSQL, including writing efficient queries and handling migrations.
- Utilized HTML, CSS, JavaScript for frontend integration and worked with Django templates to render dynamic content.
- Implemented user authentication and authorization using Django's built-in authentication system and JWT-based APIs.
- Used Git for version control, collaborated on team projects using GitHub, and participated in regular code reviews.

Synnefo Solutions | Python Developer Trainee

Jun 2023 – Dec 2023

- Attended daily stand-ups and sprint planning meetings, following Agile development practices in a team environment.
- Gained hands-on experience with Git/GitHub for version control, code review, and collaborative development.
- Contributed to internal tools and admin dashboards to streamline workflow using Django's admin panel and custom views.
- Participated in database modeling and managed CRUD operations using PostgreSQL/MySQL with Django ORM.

Projects

1. GetAnyCars

Tech Stack: Django, Django REST Framework, PostgreSQL, JWT Authentication, Swagger, Payment Gateway Integration

- Developed a backend-only vehicle marketplace platform using Django REST Framework.
- Implemented custom user roles and user-to-seller conversion with subscription-based access.
- Integrated secure payment gateway and enforced plan usage limits via APIs.
- Built scalable, well-documented REST APIs with JWT authentication and Swagger.

2. Company Management System

Tech Stack: Django, Django REST Framework, JavaScript, Bootstrap

- Created a role-based company management portal with modules for employee registration, performance tracking, and project assignment.
- Integrated JWT-based login flow for secure API access and frontend routing.
- Built salary management and mailing features with dynamic filters for user types and groups.

Certification

- **Python Full Stack Developer**
Synnefo Solutions Pvt. Ltd. – [Jun 2023 – Dec 2023]
Covered Django, REST APIs, database management (MySQL/PostgreSQL), frontend integration (HTML, CSS, JavaScript), Git, and real-world project development.
- **Flutter App Developer**
Luminar Technolab – [Apr 2024 – Oct 2024]
Trained in building cross-platform mobile applications using Flutter and Dart, focusing on UI design, API integration, state management, and deployment.
- **Python Backend Developer**
Senscript Technologies Pvt. Ltd. – [Mar2025– Feb 2026]
Trained in Python backend development with Django REST Framework, building secure REST APIs and handling database integration.
